

# AdLER Health Club Management

FITNESS is an easy-to-use gym and health club membership management system from Anvin which is tightly integrated with the AdLER ERP framework. The solution provides full fledged CRM functions to build relationship with members, activate marketing campaign through SMS, E-mail etc. Fitness enables the organisation to track the memberships and manage the scheduling of members training efficiently. With the integration with AdLER ERP framework, sales, finance, inventory, and HR functions of the club can be managed seamlessly through a single solution. Fitness has the capability to integrate with third party devices like access control systems, turnstiles or RFID / proximity card printers . Fitness is a feature-packed solution helping you in the management and growth of your club.
